Venice, November 7. N. S.

THE late Rains, which fell in great abundance in theſe Parts, have done us much miſchief; and they write from Rome, that the Damages they have ſuſtained there by the Inundation of the Tiber, are greater than can be conceived. Publick Prayers have been appointed here, and the Image of the Virgin has been ſolemnly expoſed on this Occaſion. Monſieur Mathei, the Pope's Nuncio, is ſpeedily expected here; and they talk of ſending an Ambaſſador from this State to the Court of Rome. They write from Cyprus, that the Plague had carried off a great Number of the Inhabitants of Famagoſta, and among the reſt ſeveral conſiderable Merchants that had ſettled in that Place; and that thereupon the Baſſa had removed from thence, and was retired to Nicoſia. Our Letters from Rome add, that the Swiſs Guards, upon a Pretence of ſome Grievances, of which they had frequently demanded a Redreſs, had raiſed a Mutiny, which was with much Difficulty appeaſed by the Interpoſition of Cardinal Gozadini and Don Horatio Albani. This Affair has been laid before a Congregation held for that purpoſe, and Care will be taken to ſatisfie the Swiſs in their Demands, and prevent the like Tumults for the future. The Duke of Anjou's Nomination of Monſieur Molines, Auditor of the Rota, to the Archbiſhoprick of Toledo, is likewiſe referred to be conſidered by the ſame Congregation, who are to make their Report to his Holineſs what is proper to be done in that Affair. Our Letters from Malta adviſe, that ſix of their Gallies had lately taken and carried into that Iſland two Turkiſh Saicks, and as many Corſairs belonging to Barbary. The Hereditary Prince of Tuſcany continues indiſpoſed, and Publick Prayers are daily performed in Florence for his Recovery. They write from Turin, that General Thaun being perfectly recovered of the Gout, has taken leave of his Royal Highneſs the Duke of Savoy, and is ſet out from thence for Milan, where he propoſes to make a ſhort ſtay, in order to regulate ſome Affairs relating to the Imperial Troops, and will then proceed to Vienna. Theſe Letters add, that Suſa, and the other Towns on the Frontiers, are provided with ſtrong Garriſons, for the better Security of thoſe Parts from any Inſults of the French out of Dauphiné. Three thouſand Horſe have received Orders to March towards Vado, in order to be tranſported from thence to Catalonia; and ſo ſoon as the Seaſon permits, the like number of Foot will be ſent to Final for the ſame purpoſe.

Hague, November 21. N. S. The Confederate Army broke up from before Aire on Saturday the 15th Inſtant, and marched that Day to Bethune. On Sunday they continued their March by Pont à Vendin into the Plains of Liſle, whence the Troops deſigned to quarter in that Place, Tournay and Douay, went to their reſpective Garriſons. The Duke of Marlborough and the Prince of Savoy left the Army the ſame Day, and went to Tournay. The reſt of the Troops were marching towards the ſeveral Places aſſigned them for their Winter Quarters; only the Forces which were poſted at Pont-Rouge were ordered to continue there for ſome Days, to ſecure the Paſſage of the Boats which are to bring the Artillery and heavy Baggage from Aire. The Duke of Marlborough and the Prince of Savoy came the 19th to Gand, and went the next Day to Bruſſels, where they will ſtay 'till the 25th or 26th, there being ſeveral Difficulties to be adjuſted, for raiſing fifteen hundred thouſand Gilders, to ſupply the Imperial and Palatine Troops with Bread and Forage during the Winter Seaſon. The States have ſent one of their Yachts to Antwerp, to receive his Grace and the Prince, who intend to come hither by Water. The State of the War for the enſuing Year was laid before the States-General the 17th, and they have ſent it to the ſeveral Provinces for their Approbation. The States of Holland are met, and have had the State of the War communicated to them, which is at preſent under their Conſideration. The Convoy, with her Britannick Majeſty's Yachts, arrived the 16th at the Goeree, and the Yachts are ſince come up the Maeſe. It is expected that part of the Squadron of Men of War deſigned for the Mediterranean will be Sailing in ten or twelve Days towards the Coaſt of England, and the reſt are to follow as faſt as they can be got ready. The third of December next is appointed as a Day of Publick Devotion in theſe Provinces, for the Succeſſes of the laſt Campaign. A ſtrict Order is iſſued to all the Officers in the Service of the States, to get their ſeveral Companies compleat by the 25th Day of March next, on pain of being broke in caſe of failure. The Common News-Letters from Paris ſay, that his Catholick Majeſty was decamped from Pardo, and had paſſed the Tagus with his Army; but little Credit is given here to thoſe Advices, eſpecially ſince other Letters from France make no mention of it; but on the contrary continue to tell us, that the French Court keeps great Silence as to the Affairs of Spain.

Plimouth, November 14. Yeſterday arrived the America, Stadt Limbury, Mary and Ann, Elizabeth and Henrietta, and the Stadt Permerabo, all five of and for Amſterdam, with Sugar, &c. from Surinam. The ſame Day came in the Valentine of and from Portſmouth, John Green Maſter, with Corn for Lisbon; the Fortune, Abraham Vanhooke Maſter, and the Peace, John Molman Maſter, both of and for Zurickzee from Ireland. This Day came in her Majeſty's Ship the Lancaſter from Portſmouth, and under her Convoy the Martin, Charles Richards Maſter, for Cork; the King David, Valentine May Maſter, for Lisbon, both of and from London; the Queen Ann, Thomas Rice, and the Hannah, Cornelius Hunn Maſter, both for this Place, and ſix Tin Ships for Falmouth.

Dartmouth,
